**Importance:** High

Hi Peter- Please find the document with your edits accepted along with additional edits that are responsive to your comments. Note, we have also since added the asbestos use category "packings" to the draft SNUR (which is reflected in the attached document) with that use now removed from the risk evaluation.

**Subject:** Re: Final Asbestos SNUR Significance Determination

Good morning,

I'm sorry I didn't send last night after all. As we discussed, I've moved some of the text around within the request. E.g., some of the provided background is actually the rationale, and the provided rationale is actually background. I also think we should more clearly break out comments and EPA responses, further explain why/how the SNUR complements the risk evaluation, and drop language of 12(b) notification in the cost discussion if no 12(b) costs are attributable to the SNUR. As always, I am pleased to offer some suggested language.

Best,

Peter

**Subject:** Final Asbestos SNUR Significance Determination

Peter,

As discussed, here is the OPPT OD-approved significance determination. We will be prepared to brief OMB on the action when they want it.

Best,

-Robert
